According to EC No 1907/2006 as amended as at the date of this SDS

Helix HX5 15W-40

Version	Revision Date:	SDS Number:	Date of last issue: 31.12.2021
1.8	10.12.2022	800010033742	Print Date 11.12.2022

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	: Helix HX5 15W-40
Product code	: 001H2258

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- stance/Mixture	: Engine oil.
Uses advised against	: This product must not be used in applications other than those listed in Section 1 without first seeking the advice of the sup- plier.

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier	 Shell Nederland Verkoopmaatschappij B.V. Weena 505 3013 AL Rotterdam Netherlands
Telephone Telefax Contact for Safety Data Sheet	 : (+31) 0900 202 2710 : If you have any enquiries about the content of this SDS please email lubricantSDS@shell.com

1.4 Emergency telephone number

: National Poison Information Centre (NVIC): Tel. nr. +31(0)88 755 8000 (24 hrs a day and 7 days a week). Only for the purpose of informing medical personnel in cases of accidental intoxications. +31 (0)10 4313233

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Based on available data this substance / mixture does not meet the classification criteria.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms	:	No Hazard Symbol required
Signal word	:	No signal word

According to EC No 1907/2006 as amended as at the date of this SDS

Helix HX5 15W-40

Version 1.8	Revision Date: 10.12.2022	SDS Number: 800010033742	Date of last issue: 31.12.2021 Print Date 11.12.2022
Hazar	d statements	Not class criteria. HEALTH Not class ENVIRO	AL HAZARDS: sified as a physical hazard according to CLP HAZARDS: sified as a health hazard under CLP criteria. NMENTAL HAZARDS: sified as environmental hazard according to
Preca	utionary statements	: Prevention: No preca	autionary phrases.
		Response: No preca	autionary phrases.
		Storage: No preca	autionary phrases.
		Disposal:	autionary phrases.

Safety data sheet available on request.

2.3 Other hazards

This mixture does not contain any REACH registered substances that are assessed to be a PBT or a vPvB.

Prolonged or repeated skin contact without proper cleaning can clog the pores of the skin resulting in disorders such as oil acne/folliculitis. Used oil may contain harmful impurities. Not classified as flammable but will burn.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Chemical nature	 Highly refined mineral oils and additives. The highly refined mineral oil contains <3% (w/w) DMSO- extract, according to IP346. Classification based on DMSO extract content < 3% (Regula- tion (EC) 1272/2008, Annex VI, Part 3, Note L).
	* contains one or more of the following CAS-numbers (REACH registration numbers): 64742-53-6 (01-2119480375- 34), 64742-54-7 (01-2119484627-25), 64742-55-8 (01- 2119487077-29), 64742-56-9 (01-2119480132-48), 64742-65- 0 (01-2119471299-27), 68037-01-4 (01-2119486452-34), 72623-86-0 (01-2119474878-16), 72623-87-1 (01- 2119474889-13), 8042-47-5 (01-2119487078-27), 848301-69- 9 (01-0000020163-82), 68649-12-7 (01-2119527646-33), 151006-60-9 (01-2119523580-47), 163149-28-8 (01-
	2119543695-30), 64741-88-4 (01-2119488706-23), 64741-89-

For explanation of abbreviations see section 16.

SECTION 4: First aid measures

4.1 Description of first aid measures				
Protection of first-aiders	:	When administering first aid, ensure that you are wearing the appropriate personal protective equipment according to the incident, injury and surroundings.		
If inhaled	:	No treatment necessary under normal conditions of use. If symptoms persist, obtain medical advice.		
In case of skin contact	:	Remove contaminated clothing. Flush exposed area with wa- ter and follow by washing with soap if available. If persistent irritation occurs, obtain medical attention.		
In case of eye contact	:	Flush eye with copious quantities of water.		

According to EC No 1907/2006 as amended as at the date of this SDS

Helix HX5 15W-40

Versio 1.8	on Revision I 10.12.202			9S Number: 0010033742	Date of last issue: 31.12.2021 Print Date 11.12.2022
	f anna llanna d			rinsing. If persistent irritati	enses, if present and easy to do. Continue on occurs, obtain medical attention.
l	f swallowed		:	In general no treatment is necessary unless large quantities are swallowed, however, get medical advice.	
4.2 M	ost important sy	mptoms an	d e	ffects, both acute	and delayed
Symptoms			:	Oil acne/folliculitis signs and symptoms may include formation of black pustules and spots on the skin of exposed areas. Ingestion may result in nausea, vomiting and/or diarrhoea.	
4.3 In	dication of any i	mmediate r	nec	lical attention and	I special treatment needed
٦	Freatment		:	Notes to doctor/physician: Treat symptomatically.	
SEC	TION 5: Firefigh	nting meas	sur	es	
5.1 E	xtinguishing med	dia			
S	Suitable extinguish	ning media	:		y or fog. Dry chemical powder, carbon diox- may be used for small fires only.
	Jnsuitable extingu nedia	ishing	:	Do not use water	in a jet.
5.2 S	pecial hazards ar	rising from	the	substance or mix	kture
S	Specific hazards d ighting	-	:	Hazardous combu A complex mixtur gases (smoke). Carbon monoxide occurs.	ustion products may include: e of airborne solid and liquid particulates and may be evolved if incomplete combustion nic and inorganic compounds.
5.3 A	dvice for firefigh	ters			
	Special protective or firefighters	equipment	:	gloves are to be v large contact with Breathing Appara a confined space.	equipment including chemical resistant yorn; chemical resistant suit is indicated if spilled product is expected. Self-Contained tus must be worn when approaching a fire in Select fire fighter's clothing approved to s (e.g. Europe: EN469).
	Specific extinguish ods	ing meth-	:		measures that are appropriate to local cir- he surrounding environment.

According to EC No 1907/2006 as amended as at the date of this SDS

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	:	6.1.1 For non emergency personnel:Avoid contact with skin and eyes.6.1.2 For emergency responders:Avoid contact with skin and eyes.

6.2 Environmental precautions

Environmental precautions	:	Use appropriate containment to avoid environmental contami- nation. Prevent from spreading or entering drains, ditches or rivers by using sand, earth, or other appropriate barriers.
		Local authorities should be advised if significant spillages cannot be contained.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up	:	Slippery when spilt. Avoid accidents, clean up immediately. Prevent from spreading by making a barrier with sand, earth or other containment material. Reclaim liquid directly or in an absorbent. Soak up residue with an absorbent such as clay, sand or other suitable material and dispose of properly.

6.4 Reference to other sections

For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet., For guidance on disposal of spilled material see Section 13 of this Safety Data Sheet.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Technical measures	:	Use local exhaust ventilation if there is risk of inhalation of vapours, mists or aerosols. Use the information in this data sheet as input to a risk assessment of local circumstances to help determine appropriate controls for safe handling, storage and disposal of this material.
Advice on safe handling	:	Avoid prolonged or repeated contact with skin. Avoid inhaling vapour and/or mists. When handling product in drums, safety footwear should be worn and proper handling equipment should be used. Properly dispose of any contaminated rags or cleaning mate- rials in order to prevent fires.
Product Transfer	:	Proper grounding and bonding procedures should be used during all bulk transfer operations to avoid static accumulation.

According to EC No 1907/2006 as amended as at the date of this SDS

Helix HX5 15W-40

Version 1.8	Revision Date: 10.12.2022	SDS Number: 800010033742	Date of last issue: 31.12.2021 Print Date 11.12.2022					
 7.2 Conditions for safe storage, including any incompatibilities Further information on storage stability Keep container tightly closed and in a cool, well-ventilated place. Use properly labeled and closable containers. Store at ambient temperature. 								
Packa	iging material	ering the pa : Suitable ma steel or high	tion 15 for any additional specific legislation cov- ckaging and storage of this product. terial: For containers or container linings, use mild density polyethylene. naterial: PVC.					
Conta	iner Advice		e containers should not be exposed to high tem- ecause of possible risk of distortion.					
-	ic end use(s) fic use(s)	: Not applicat	le					

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Occupational Exposure Limits

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
Oil mist, mineral	Not As- signed	TLV-8hr (Mist)	5 mg/m3	NL WG
Oil mist, mineral		TWA (inhalable fraction)	5 mg/m3	US. ACGIH Threshold Limit Values
Oil mist, mineral		TWA (Mist)	5 mg/m3	NL WG

Biological occupational exposure limits

No biological limit allocated.

8.2 Exposure controls

Engineering measures

The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. Appropriate measures include:

Adequate ventilation to control airborne concentrations.

Where material is heated, sprayed or mist formed, there is greater potential for airborne concentrations to be generated.

General Information:

Define procedures for safe handling and maintenance of controls.

Educate and train workers in the hazards and control measures relevant to normal activities associated with this product.

According to EC No 1907/2006 as amended as at the date of this SDS

Helix HX5 15W-40

Version	Revision Date:	SDS Number:	Date of last issue: 31.12.2021
1.8	10.12.2022	800010033742	Print Date 11.12.2022

Ensure appropriate selection, testing and maintenance of equipment used to control exposure, e.g. personal protective equipment, local exhaust ventilation.

Drain down system prior to equipment break-in or maintenance.

Retain drain downs in sealed storage pending disposal or subsequent recycle.

Always observe good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping.

Personal protective equipment

The provided information is made in consideration of the PPE directive (Council Directive 89/686/EEC) and the CEN European Committee for Standardisation (CEN) standards.

Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

Eye protection	:	If material is handled such that it could be splashed into eyes, protective eyewear is recommended. Approved to EU Standard EN166.
Hand protection		
Remarks	:	Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374, US: F739) made from the following materials may provide suitable chemical protection. PVC, neoprene or nitrile rubber gloves Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended. For continuous contact we recommend gloves with break-through time of more than 240 minutes with preference for > 480 minutes where suitable gloves can be identified. For short-term/splash protection we recommend the same but recognize that suitable gloves offering this level of protection may not be available and in this case a lower breakthrough time maybe acceptable so long as appropriate maintenance and replacement regimes are followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material. Glove thickness should be typically greater than 0.35 mm depending on the glove make and model.
Skin and body protection	:	Skin protection is not ordinarily required beyond standard work clothes. It is good practice to wear chemical resistant gloves.
Respiratory protection	:	No respiratory protection is ordinarily required under normal

SECTION 10: Stability and reactivity

10.1 Reactivity

The product does not pose any further reactivity hazards in addition to those listed in the following sub-paragraph.

10.2 Chemical stability

Stable.

No hazardous reaction is expected when handled and stored according to provisions

10.3 Possibility of hazardous reactions

Hazardous reactions	:	Reacts with strong oxidising agents.
---------------------	---	--------------------------------------

10.4 Conditions to avoid

Conditions to avoid	:	Extremes of temperature and direct sunlight.
---------------------	---	--

10.5 Incompatible materials

Materials to avoid	: Stro	ong oxidising agents.
--------------------	--------	-----------------------

10.6 Hazardous decomposition products

No decomposition if stored and applied as directed.

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of	:	Skin and eye contact are the primary routes of exposure alt-
exposure		hough exposure may occur following accidental ingestion.

Acute toxicity

Product:		
Acute oral toxicity	:	LD50 (rat): > 5.000 mg/kg Remarks: Low toxicity Based on available data, the classification criteria are not met.
Acute inhalation toxicity	:	Remarks: Based on available data, the classification criteria are not met.
Acute dermal toxicity	:	LD50 (Rabbit): > 5.000 mg/kg Remarks: Low toxicity Based on available data, the classification criteria are not met.
Skin corrosion/irritation		
Product:		
Remarks	:	Slightly irritating to skin.

Further information

Training advice	:	Provide adequate information, instruction and training for operators.
Other information	:	No Exposure Scenario annex is attached to this safety data sheet. It is a non-classified mixture containing hazardous sub- stances as detailed in Section 3; relevant information from Exposure Scenarios for the hazardous substances contained have been integrated into the core sections 1-16 of this SDS.
		A vertical bar () in the left margin indicates an amendment from the previous version.
Sources of key data used to compile the Safety Data Sheet	:	The quoted data are from, but not limited to, one or more sources of information (e.g. toxicological data from Shell Health Services, material suppliers' data, CONCAWE, EU IUCLID date base, EC 1272 regulation, etc).

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
